

lianfu-catering.com

Took over an unfinished build. Rebuilt the homepage (auto-sliding hero, product carousel, collections), removed a broken header logo and 404 footer images. Retail and wholesale pricing by customer role.

WooCommerce order emails fixed

a-bao.org.tw

Order emails were not reliably reaching staff or customers. Routed WordPress mail through FluentSMTP with Gmail, set the staff new-order recipients, corrected the store timezone, tested every notification.

After a previous migration every image was broken. Recovered the files, fixed the broken image paths, rebuilt the thumbnails. Added cache-proof view counters (點閱統計, right) and a full SEO setup.

3,706 image files recovered	1,405 broken image paths fixed	1,389 thumbnails rebuilt
--------------------------------	-----------------------------------	-----------------------------

The image is a screenshot of the 'GOOD NEWS 好新聞' website. At the top, there is a navigation bar with the date '2026年 9月 23日 16:16', a status indicator '● 在線觀看: 1', and a 'Latest' section listing '阿卡貝拉校園巡演宜蘭開唱 金曲樂團助陣培育新秀 美國'. Below this is a large banner with the 'GOOD NEWS 好新聞' logo on the left and a list of categories on the right: '新聞', '政令宣導', and '工商廣告'. A red stamp on the banner reads '最佳首選'. Below the banner is a dark navigation bar with icons for home, local, education, industry, travel, sports, health, food, religion, consumption, life, people, public welfare, and special features, along with a search icon. The main content area shows a video player with a scene of people in a park. To the right of the video is a '點閱統計' (View Statistics) section showing '今日點閱' (Today's Views) as 3, '總點閱' (Total Views) as 585,833, and '● 在線觀看' (Online Viewers) as 1. At the bottom right, there is a small advertisement for '森歷其境' (Forest Experience) with a date of 7.04. On the left side of the page, there are social media icons for Facebook, LINE, and a plus sign. On the right side, there are icons for YouTube, Facebook, and a home button.

Hacked news site: investigation & hardening

Name withheld to protect the client

Traced a compromise to a stolen administrator login used by a botnet; found a hidden admin account and hidden casino spam injected into the homepage builder data. Earlier, hardened the site's poll against automated vote-stuffing. Redacted evidence can be shown privately.

53 attacker IPs traced	28 countries	187 KB hidden spam located	485 / 800 fake poll votes blocked
--	------------------------------------	--	---

What a hacked-site cleanup covers

1. Admin accounts, sessions and application passwords

2. Injected content in the database and page-builder data

3. Theme and plugin file integrity against clean copies
4. Unknown scheduled tasks and backdoors

5. Login hardening, 2FA and credential rotation
